PROFESSIONAL SUMMARY

Industrial Information Technology undergraduate at Uva Wellassa University of Sri Lanka (BSc Hons, expected 2028) building full-stack web applications with TypeScript, Next.js, React, Node.js, PHP, and MySQL, plus object-oriented systems in Java and C. Built several projects covering role-based access control, relational database design, and Vercel deployment; APNIC-certified in IPv6 and Routing. Seeking a software engineering & DevOps internship or junior full-stack developer role.

TECHNICAL SKILLS

Programming Languages	Java, TypeScript, JavaScript (ES6+), Python, C, PHP 8, SQL
Frontend & Web	Next.js (App Router), React, Tailwind CSS, HTML5, CSS3, Framer Motion, Three.js
Backend & APIs	Node.js, RESTful APIs, JDBC, Role-Based Access Control (RBAC), WebAssembly CGI (Wasmer Edge)
Databases	MySQL, Microsoft SQL Server, MongoDB, Normalization, ER Modeling, Indexing, Query Optimization
DevOps & Cloud	Git, GitHub Actions, CI/CD, Docker, Vercel, Nginx, Linux (Ubuntu), Windows Server
Networking & Security	IPv6, Routing Fundamentals (APNIC Certified), SQL Injection & XSS Prevention
Tools & Practices	OOP, MVC, DAO Pattern, Agile/Scrum, Postman, VS Code, IntelliJ IDEA, Figma, Canva

FEATURED TECHNICAL PROJECTS

UniAlloc – Academic Resource & Workload Allocation System

2024

Tech Stack: Next.js, TypeScript, React, MySQL, Tailwind CSS

GitHub: github.com/hirushasuhan/UniAlloc_host | **Live:** unialloc.app

- Built a full-stack workload allocation platform for university Dean's Offices, replacing paper scheduling for 50+ faculty members.
- Implemented role-based access control (RBAC) for Deans, Department Heads, and Academic Staff, with automated lecturer workload calculation and overload alerts.
- Optimized the MySQL schema and indexing, delivering sub-100ms dashboard queries during semester allocation audits.

Serandib Grand – Hotel Reservation & Management Platform

2024

Tech Stack: PHP 8, MySQL, Wasmer Edge (WCGI)

GitHub: github.com/hirushasuhan/serandib_grand | **Live:** serandib-grand.wasmer.app

- Developed a reservation portal with four access roles (Admin, Manager, Front Desk, Guest), booking collision prevention, live room inventory, tariff calculation, and invoicing.
- Deployed serverlessly on Wasmer Edge using WebAssembly CGI (WCGI).
- Prevented SQL injection and Cross-Site Scripting (XSS) with prepared statements and strict server-side validation.

Bulk Mail & Automated QR Ticket Generation Engine

2024

Tech Stack: Node.js, JavaScript, Nodemailer, Dynamic QR APIs

GitHub: github.com/hirushasuhan/bulk-mail-and-auto-qrcode-and-ticket-generate-system

- Engineered an event ticketing pipeline that generates unique, serialized QR codes for attendee check-in.
- Configured an asynchronous SMTP queue that sent 500+ personalized e-tickets at a 99%+ delivery rate, using a responsive HTML email template.

Bus Fleet Management & Scheduling System

2023

Tech Stack: Java (OOP), MySQL, JDBC

GitHub: github.com/hirushasuhan/bus-management-system

- Architected a desktop fleet management system in Java using MVC and DAO patterns with JDBC and ACID transactions.
- Automated scheduling, route assignments, maintenance tracking, and driver rosters, reducing administrative coordination time by ~70%.

Personal Portfolio Website

2026

Tech Stack: Next.js 16 (App Router), React 19, TypeScript, Tailwind CSS, Framer Motion, Three.js

GitHub: github.com/hirushasuhan/hirusha_suhan_me | Live: hirushasuhan.me

- Designed and built a responsive developer portfolio with Framer Motion animations and Three.js 3D visuals.

Additional Projects

- **Console Banking System (C, file I/O):** admin and customer modes, binary file persistence for ledgers and transfers, and input validation against buffer overflows. [GitHub](#)
- **Expense Tracker (Java, OOP):** command-line finance app with Income and Expense models, transaction history, and balance reports. [GitHub](#)

EDUCATION

Uva Wellassa University of Sri Lanka

2024 – 2028 (Expected)

Bachelor of Science (Hons) in Industrial Information Technology | Department of Computer Science & Informatics

Focus: Software Engineering, Database Systems, Computer Networks, DevOps

ESOFT Metro Campus

2020 – 2021

Diploma in Information Technology; Diploma in English Language (both Pearson Certified)

Bandaranayake College, Gampaha

A/L 2022 (2023)

G.C.E. Advanced Level, Technology stream | G.C.E. Ordinary Level, 8 As and 1 B (2019)

CERTIFICATIONS

- **APNIC Academy:** Routing Fundamentals and IPv6 Fundamentals (2023)
- **HackerRank:** Java, Python, and JavaScript (Basic) Problem Solving (2025)
- **University of Moratuwa:** Web Design, Python Programming, Front-End Web Development (2023)

EXTRACURRICULAR ACTIVITIES

- **Lead Visual & Graphic Designer, IEEE SLSYWC '26 and IEEE Computer Society Student Branch (UWU):** event branding and digital graphics.
- **Technology Writer & Researcher, The Evaluation:** technical articles on systems architecture and emerging technology.
- **Member, Maximum Esports:** team coordination and strategic communication in competitive play.
